

ASHRAE JOURNAL

EDITORIAL INDEX FOR 1968 VOLUME 10

Names of authors appear in bold; subject classifications in bold capitals.

	No.	Page		No.	Page
A					
Achenbach, P. R.			Protection of Duct Openings in Fire Re-		
ASHRAE has Vital Role in Urban Planning	3—	74	sistive Construction, B. A. Zimmer . . .	9—	51
Purpose of ASHRAE Research in the Larger			Protection of Duct Penetration in a Fire Re-		
Mission of the Society, The	5—	86	sistive Ceiling, J. C. Ollinger	9—	53
Ackerman, L. and I. Stibolt, Use of Residual			Reflective Solar Control Film on Windows		
Fuel Oil as a Major Source of Heat for School			Gains Acceptance, D. R. Theissen	10—	44
Buildings, The	5—	57	Smoke Problems in High-Rise Buildings,		
Agnon, S., Principles of Building Pressuriza-			N. B. Hutcheon and G. W. Shorter . . .	9—	57
tion by Means of Plenums	6—	82	Summing Up—Symposium on Fire Hazards		
Ahart, J. R., Computers in a Consulting Engi-			in Buildings and Air-Handling Systems,		
neer's Office	4—	35	A. G. Simmonds and C. W. Phillips . . .	9—	51
AIR CONDITIONING			AIR DISTRIBUTION		
Applications for Oil Air Conditioning, I.			Building Mechanical Systems and Fire Prob-		
Huebsch	5—	67	lems (Part I), H. E. Nelson	8—	42
ASHRAE Program on Energy Requirements			Building Mechanical Systems and Fire Prob-		
for Heating and Cooling, R. H. Tull . . .	4—	44	lems (Part II), F. Andrews, Jr.	8—	46
Auditorium and Theater: An Engineering			Introductory Remarks to Symposium on Fire		
Challenge, N. A. La Courte	11—	52	Hazards In Buildings and Air-Handling		
Building Mechanical Systems and Fire Prob-			Systems, A. G. Simmonds and C. W.		
lems (Part I), H. E. Nelson	8—	42	Phillips	8—	39
Building Mechanical Systems and Fire Prob-			Manufacturers' Responsibility to Furnish		
lems (Part II), F. Andrews, Jr.	8—	46	Fire-Safe Duct and Insulating Materials,		
Computer Capabilities in Air-Conditioning			W. B. Silk	9—	62
Problems, R. E. Lampe	4—	38	Measurement of Ventilation Rates with		
Computer Evaluation of the Shadow Area on			Radioactive Tracers, M. Gerrard	9—	47
a Window Cast by the Adjacent Building,			Principles of Building Pressurization by		
T.-Y. Sun	9—	66	Means of Plenums, S. Agnon	6—	82
Field Validation of the ASHRAE Energy Cal-			Principles of Fire Protection, G. A. Pelletier		
culation Procedure, J. M. Ayres	12—	104	Problems in Applying NFPA Standard 90A,		
Hospital Air Conditioning and Sepsis Con-			M. M. Brown	8—	50
trol, E. L. Galson and K. R. Goddard . . .	7—	33	Protection of Duct Openings in Fire Resistive		
Introductory Remarks to the Symposium on			Construction, B. A. Zimmer	9—	51
Computer Applications for Air-Condition-			Protection of Duct Penetration in a Fire Re-		
ing Engineers, L. W. Nelson	4—	35	sistive Ceiling, J. C. Ollinger	9—	53
Introductory Remarks to Symposium on Fire			Report: Air Disinfection in Hospitals, S. A.		
Hazards in Buildings and Air-Handling			Spencer	7—	68
Systems, A. G. Simmonds and C. W.			Smoke Problems in High-Rise Buildings, N.		
Phillips	8—	39	B. Hutcheon and G. W. Shorter	9—	57
Manufacturers' Responsibility to Furnish			Structural Design of Air-Moving Systems,		
Fire-Safe Duct and Insulating Material's,			J. P. Conniff	5—	77
W. B. Silk	9—	62	Summing Up—Symposium on Fire Hazards		
Principles of Fire Protection, G. A. Pelletier			in Buildings and Air-Handling Systems,		
Problems in Applying NFPA Standard 90A,			A. G. Simmonds and C. W. Phillips . . .	9—	51
M. M. Brown	8—	50	Wet Deck Dry Deck Dual-Duct System, J.		
			Klassen	7—	54

COMFORT

- ASHRAE-Sponsored Research Project RP-41 Produces R-Meter, A. P. Gagge, H. Graichen, J. A. J. Stolwijk, G. M. Rapp and J. D. Hardy 6— 77
- Direct Electric (Resistance) Comfort Heating, R. L. Boyd 2— 44
- Final Progress Report: RP-41 Physiological Effects of High Intensity Radiant Beam Heating, A. P. Gagge 4— 86
- KSU Emphasizes Applied Research for Tomorrow's Environment, J. H. Cansdale .. 11— 31
- Research Projects in Human Physiology and Thermal Comfort, R. G. Nevins 4— 61
- Simulation and Feasibility Study of a Thermal Comfort Equation, E. S. Lee, C. L. Hwang, L. T. Fan and M. A. Shaikh 8— 54
- Water Consumption During 24-Hour Exposures to Hot, Humid Environments, P. E. McNall, Jr. and P. W. Ryan 3— 51

COMPUTERS

- Calculation of Cooling Load by Digital Computer, D. G. Stephenson 4— 41
- Computer Capabilities in Air-Conditioning Problems, R. E. Lampe 4— 38
- Computer Evaluation of the Shadow Area on a Window Cast by the Adjacent Building, T.-Y. Sun 9— 66
- Computers in a Consulting Engineer's Office, J. R. Ahart 4— 35
- Construction of Psychrometric Table by Use of a Digital Computer, J. P. Fairfax and J. S-T Tung 4— 59
- Emerging Importance of the Computer, The, W. P. Chapman 9— 72
- Further Investigation of Empirical Equations Used in Programming a Psychrometric Table on a Computer, J. P. Fairfax, J. S-T Tung and A. W. Courtney 7— 56
- Introductory Remarks to the Symposium on Computer Applications for Air-Conditioning Engineers, L. W. Nelson 4— 35
- Simulation and Feasibility Study of a Thermal Comfort Equation, E. S. Lee, C. L. Hwang, L. T. Fan and M. A. Shaikh 8— 54
- Computer Capabilities in Air-Conditioning Problems, R. E. Lampe 4— 38
- Computer Evaluation of the Shadow Area on a Window Cast by the Adjacent Building, T.-Y. Sun 9— 66
- Computers in a Consulting Engineer's Office, J. R. Ahart 4— 35
- Conniff, J. P., Structural Design of Air-Moving Systems 5— 77
- Construction of Psychrometric Table by Use of a Digital Computer, J. P. Fairfax and J. S-T Tung 4— 59
- Consumerism — The New Face of Product Safety, B. Whitaker 8— 68
- Continuing Education . . . the Key to Engineering Professionalism, L. V. Appleby . . 8— 77

CONTROLLED ENVIRONMENT

- Environmental Control—Temperature and Humidity, E. H. Gage 11— 37
- Hospital Air Conditioning and Sepsis Control, E. L. Galson and K. R. Goddard . . 7— 33
- Humidity Control in the Printing Industry Under Australian Conditions, S. B. Robertson 2— 70
- KSU Emphasizes Applied Research for Tomorrow's Environment, J. H. Cansdale .. 11— 31
- Method of Humidity Control Using a Capillary Air Washer, A. C. H. Jordan 1— 68
- Office Building or Greenhouse?, H. E. Sjolund 6— 48
- Report: Air Disinfection in Hospitals, S. A. Spencer 7— 68

No. Page

- Research for Better Environmental Quality, R. B. Engdahl 3— 47
- Water Consumption During 24-Hour Exposures to Hot, Humid Environments, P. E. McNall, Jr. and P. W. Ryan 3— 51
- Wet Deck Dry Deck Dual-Duct System, J. Klassen 7— 54

COOLING

- Applications for Oil Air Conditioning, I. Huebsch 5— 67
- ASHRAE Program on Energy Requirements for Heating and Cooling, R. H. Tull 4— 44
- Calculation of Cooling Load by Digital Computer, D. G. Stephenson 4— 41
- Indirect Evaporative Cooling, N. A. Mahmood and A. A. Latif 1— 61
- Cooper, T. J. R., Chilling of Pig Carcasses—Economic and Practical Considerations 12— 79
- Courtney, A. W., see J. P. Fairfax
- Critique of ASHRAE Comfort Standard 55-66, A. P. E. McNall, Jr. and R. G. Nevins 6— 99

D

- Danger Ahead in Engineering Education!, Crosby Field 4— 82
- Decker, A. S., View of a Large Equipment Manufacturing Organization, The 5— 84

DEHUMIDIFICATION

- Dehumidification—In the Field of Preservation and Drying, F. W. Arrigoni 3— 62
- Spot Heating and Condensation Control Using Gas Infrared Systems, W. H. Best .. 6— 40
- Dehumidification—In the Field of Preservation and Drying, F. W. Arrigoni 3— 62
- Design for Total Energy Reliability, A. C. J. R. McClure 5— 63
- Design of a Stabilized Fuel Oil Supply System for a High Rooftop Boiler Plant, R. Grossman 5— 54
- Direct Electric (Resistance) Comfort Heating, R. L. Boyd 2— 44
- Dunlap, E., Feasibility of Electric Heating ... 2— 39

E

- Economic Design of Building Energy Systems, W. R. Barron 2— 51
- Economic Study of an Electric Infrared Space Heating Installation, An, A. J. Morelli 6— 43
- Editor's Comment, J. H. Cansdale 1— 35
- 2— 35
- 3— 31
- 4— 33
